

Bruce Almighty

(Universal, 2003)

When Bruce is in the diner he realizes he can move things with his mind. He says he needs a spoon, and just as he says it a spoon comes out of his mouth. The audio here could be triggering.

A little bit after this when he runs into the group of men that beat him up he sends bugs out of his mouth and puffs up his cheeks which looks kind of like a moment before sort of thing.
