

# UP

(Pixar, 2009)

After Russell tells Carl that he named the snipe Kevin, Kevin hits Carl on the head and Carl uses his cane to shoo him. Kevin eats the cane and it gets stuck in his throat. He coughs it back up. The audio here could be triggering and the cane is seen wet when it comes out. Shortly after this Kevin goes to the roof of the house and eats a balloon. The balloon deflates in his throat and he spits it out. The audio here could be triggering.

Later on the same thing happens again with Carl's cane. After we see Carl and Russell playing with the babies, Carl asks where his cane is. Kevin coughs it up and the babies cough up the tennis balls. Once again, the audio might be triggering.
