

Toy Story

(Pixar, 1995)

When Woody is talking to Andy's toys from Sid's house he uses Buzz's detached arm to convince them that Buzz is with him. Mr Potato Head says, "wait just a minute, what are you trying to pull?" Woody says, "nothing!" and shows that Buzz's arm is detached. Bo Peep screams and Rex is s*. It is very brief and offscreen but you do see his cheeks puff up and there is a little bit of audio. I would suggest plugging your ears when Bo screams and unplugging them when Potato Head releases the string of lights he is holding.
