

Trolls Holiday

(Dreamworks, 2017)

The first time we see the Trolls, Branch is practicing smiling and Poppy asks if he is about to b*. In the same scene he lists things Poppy has in a typical plan and right before he says “glitter” his cheeks puff up. Later on during the holiday song, when they introduce the tickle holiday, the spider seems to v* smaller spiders twice. Actually throughout this song, there are some visual triggers. After they finish talking about all of the holidays, King Gristle g*s because his sweater is too tight.
