

# IT

(New Line Cinema, 2017)

This was submitted.

About a minute into the movie, Bill says “you didn’t see the v\* coming out of my nose this morning?” To which is brother replies “that’s disgusting” before the topic is dropped.

In the middle of the movie Bill, Richie, and Eddie are exploring the abandoned house. Richie says “you can’t inhale cause then you’d be eating it” to which Eddie g\*s.

Towards the end when the Losers Club is fighting IT, the monster v\*s what looks like black tar onto Eddie.

I would be very cautious while watching this movie and have a pause button on standby.
